## SELECT Part Store™

Convenient. Easy. Accurate.

- Order Online 24/7
- Verify price and availability before ordering
- Delivery or will-call part pickup
- More than 500,000 parts available
- Specials and promos

**ALL MAKES.  
ALL PARTS.  
ALL THE TIME.**  
Start your online account today!

Online retailing has become so popular during the last 15 years because of *Simplicity and Convenience*, and that equals the **SELECT™ Parts Store**.

Ordering from the comfort of your home or office has never been easier with the **SELECT Parts Store**. The **SELECT Parts Store** is an online parts ordering service that allows you to order parts at any time with a click of a mouse. You don't have to leave your office or even pick up a telephone. You can simply select the parts you need online and have them delivered directly to your location.

**SELECT Parts Store** is really easy, and it solves your most pressing issues when ordering parts for your truck, like checking for availability or checking out the price prior to performing routine maintenance.

The **SELECT Parts Store** has been designed for you by providing your personalized price list, order history, parts specials unique to the **SELECT Parts Store** and real-time parts availability.

Get started by going to [selectpartstore.com](http://selectpartstore.com) and get set-up by registering your company. Brechbuhler Truck Sales will contact you to activate your account. **It's really that simple!**

**Call: 330-477-8127** Parts open 'till 10:00 PM

**DELCO REMY STARTERS & ALTERNATORS:**

**5 REASONS TO MAINTAIN THE BURNER SYSTEM ON YOUR HINO**

- Increased fuel economy** -- By installing the Burner Maintenance Kit the exhaust system operates more efficiently. Higher efficiency = Higher fuel economy.
- Minimal fleet business interruption** -- Adding the Burner Maintenance Kit to the proper operating cycle reduces unplanned downtime.
- Longer DPF life** -- Properly maintained Burner System leads to fewer DPF preventable failures.
- Optimized DPF performance** -- Properly maintained Burner Systems produce proper temperatures for regeneration.
- Lower overall maintenance costs** -- Continued operation after experiencing Burner misfires can lead to extensive damage to after-treatment components such as DPR, DOC.
